

FOUNDATIONS OF STRATEGIC CRITICAL THINKING

In today's society, many people experience information overload. The ability to clearly reason through problems and to present arguments in a logical, compelling way has become a key skill for survival in today's world. This one-day workshop will give participants some practical tools and hands-on experience with critical thinking and problem solving.

OBJECTIVE:

This foundations course will provide skills for critical thinking. As a result of participating in this workshop, participants will be able to:

- Define critical and non-critical thinking
- Identify their critical thinking style(s), including areas of strength and improvement
- Describe other thinking styles, including left/right brain thinking and whole-brain thinking
- Work through the critical thinking process to build or analyze arguments
- Develop and evaluate explanations
- Improve key critical thinking skills, including active listening and questioning
- Use analytical thought systems and creative thinking techniques
- Prepare and present powerful arguments

WORKSHOP AGENDA TOPIC:

UNDERSTANDING CRITICAL THINKING

The first module of the course will look at what critical thinking is, some characteristics of critical thinkers, and key critical thinking skills. Participants will also explore ways to develop their critical thinking skills.

WHERE DO OTHER TYPES OF THINKING FIT IN?

Next, participants will look at left and right brain and whole brain thinking.

PITFALLS TO REASONED DECISION MAKING

This module will look at some of the barriers to good decision making and explore how to get around them.

THE CRITICAL THINKING PROCESS

Next, participants will delve into the seven phase critical thinking model. They will also learn about the standards of critical thinking that serve as the foundation for this model. Participants will then practice the process through a case study.

A CRITICAL THINKER'S SKILL SET

This session will give participants some skills necessary for critical thinking: asking questions, probing, and active listening.

FOUNDATIONS OF STRATEGIC CRITICAL THINKING

CREATING EXPLANATIONS

Another important part of critical thinking is being able to clearly explain why something is a particular way. This session will help participants build that skill.

DEALING WITH ASSUMPTIONS

Although assumptions can help us get through our everyday lives, they can be a major impediment to critical thinking. In this session, participants will discuss how to reduce the number of assumptions that they rely on.

COMMON SENSE

This session will explore a frequently overlooked thinking tool: common sense.

CRITICAL AND CREATIVE THOUGHT SYSTEMS

Next, participants will look at some analytical and inventive thought systems, including De Bono's thinking hats and brainstorming.

PUTTING IT INTO PRACTICE

This final module will give participants some tips on preparing and presenting a powerful, logical argument. Participants will also have an opportunity to prepare and present a critical thinking presentation, and to evaluate others' presentations with the skills that they have learned.

WORKSHOP WRAP-UP

Each participant creates an individual action plan for achieving stronger expertise in strategic planning.

PARTICIPANTS RECEIVE:

- Coaching throughout the session
- Evaluation of strengths/areas for improvement
- A workbook / reference manual

LENGTH OF SESSION:

One Day Workshop

CLASS SIZE:

Class size is up to 20 participants.
